

HELP US BETTER UNDERSTAND THE  
EXPERIENCE OF STUTTERING

**What we need:**

We are seeking to interview adults ages 18 and older who stutter. Participants must be native speakers of English and reside in the United States.

**Who we are:**

We are a team of researchers at Claremont Graduate University, working in collaboration with Justine Sherman & Associates, who are interested in the experience of stuttering for adults who stutter.

Participants will be compensated with a \$25 Amazon gift card.

This project is generously funded by the Crossing Boundaries Research Award at Claremont Graduate University.

Please contact Rebecca Donaldson at [rebecca.donaldson@cgu.edu](mailto:rebecca.donaldson@cgu.edu) if interested in participating.
